Message from the Guest Editor

This Special Issue, “Vasculitis in Adults and Children: Symptoms, Diagnosis and Treatment”, summarizes recent topics on the symptoms, diagnosis, and treatment of vasculitis in both adults and children. Clinical research regarding epidemiology, gender difference, prognostic factors, complications, classification criteria, and treatment, but also basic/translational research which tries to identify novel therapeutic targets, are welcomed. In this way, we should be able to better understand how to diagnose, and how to treat, vasculitis. We also discuss how future therapeutic strategies resolve the current unmet medical needs. Thus, authors are encouraged to submit original research, review articles, systematic reviews, and meta-analyses.

- vasculitis
- glucocorticoids
- cyclophosphamide
- molecularly targeted therapy
- unmet clinical needs
- potential therapeutic targets

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
