### Message from the Guest Editors

Dear Colleagues,

Gastrointestinal tumors are a common and challenging group of malignancies that have a significant impact on patients' health and quality of life. The aim of this Special Issue is to provide the latest research advances, diagnostic approaches, therapeutic strategies, and management experiences to help the medical community better meet the challenges of gastrointestinal tumors.

This Special Issue covers several aspects, including but not limited to the diagnosis, treatment, and follow-up management of various gastrointestinal tumor types, including gastric, colorectal, esophageal, and pancreatic cancers.

We look forward to your submissions and hope that this Special Issue will provide useful information and inspiration to our readers and contribute positively to the diagnosis, treatment, and management of gastrointestinal tumors.
