submissions:

closed (20 April 2023)

Message from the Guest Editors

Acute kidney injury (AKI) is a worldwide public health problem associated with high morbidity and mortality. Moreover, AKI is now identified as a heterogeneous clinical syndrome that has multiple etiologies and variable pathogenesis. These heterogeneities affect the diagnosis and treatment of AKI.

This Special Issue will publish a novel and exciting science which addresses the clinical management and fundamental mechanisms of AKI. The scope covers translational medicine research, new drug design, and clinical trials, new diagnostic methods, genetics analysis, cellular death and inflammation, signaling, and gene expression. The study of new technologies or materials is also welcomed. Studies should offer new insights into fundamental mechanisms and therapeutic strategies in AKI. We accept primary research papers, reviews, and commentaries. Short Takes about findings of exceptional relevance and interest in the related area are also welcomed.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
