Message from the Guest Editor

Dear Colleagues,

Treatment of heart valve pathologies has revolutionized during the last two decades and led to a unique interdisciplinary approach. New techniques have enabled improved survival and quality of life of patients formerly considered untreatable.

This Special Issue will summarize the latest clinical advancements and treatment recommendations for patients with heart valve diseases. The issue will cover treatment aspects as well future developments in both, AV-valve and aortic/pulmonary valve disease.

It will also include data concerning the role of echocardiography, MRI and CT in this setting. Thereby, the readers of this issue should be able to get an extensive insight into the essential aspects of modern heart valve treatment. The interdisciplinary assembly of authors from cardiology as well as heart surgery mirror the close collaboration between the two specialties.

Keywords: coronary artery bypass grafting; aortic valve replacement; valve repair; heart valve prosthesis; heart valve pathologies; heart valve treatment

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
