Message from the Guest Editors

Dear Colleagues,

Stroke is the second leading cause of both disability and death worldwide, with about 17 million strokes per year globally. Despite the notable increase in the population of patients eligible for acute stroke intervention, access to acute stroke care and utilization of mechanical thrombectomy is lagging in these patients. Spreading awareness to increase the proportion of thrombectomies for eligible patients is needed. In addition, we are currently witnessing a rapid evolution in stroke medical devices, neuroimaging, and neuroprotection.

This Special Issue “Clinical Aspects of Cerebral Ischemia” aims to underline the latest advances in the stroke field, welcoming submissions that focus on prevention, improved detection, access to care, management, and therapeutic interventions.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
