Deadline for manuscript
submissions:
closed (10 March 2021)

Message from the Guest Editor

Dear Colleagues,

Metabolomics, one of the established *omics* technologies, has been utilized to understand the metabolic pathways in various cells. This method enables us to evaluate systemic health status and metabolic diseases through high-dimensional metabolomics data.

This Special Issue aims to provide an update regarding the current topics in metabolomics related to health and diseases. Therefore, we would like to invite original research, state-of-the-art reviews, and viewpoints. In particular, we would like to encourage the submission of manuscripts covering biomarker discovery, mechanism elucidation, technology development, and data analysis.

We look forward to your submissions!

Prof. Dr. Masahiro Sugimoto

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
