Message from the Guest Editor

Dear Colleagues,

Pancreatic resections are technically challenging and are accompanied by a substantial risk of postoperative complications. Today, due to improvements in surgical techniques and perioperative management, along with the wide use of minimally invasive approaches, pancreatic resections are carried out routinely at high-volume centers with mortality rates <2% and acceptable complication rates. Furthermore, the development of new chemotherapeutic regimens, new multimodal pathways (neoadjuvant and total neoadjuvant) and a better knowledge of tumor biology have permitted an increase in the number of patients who can benefit from curative resections.

This Special Issue aims to provide the reader with an overview of current surgical and oncological outcomes, with a particular focus on the surgical approaches (open vs. minimally invasive) and the role of surgery (curative and palliative) in multimodal treatment.

Message from the Editorial Board

Journal of Clinical Medicine (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
