submissions:

closed (15 April 2022)

Message from the Guest Editor

Dear Colleagues,

This Special Issue of *J Clin Med* is dedicated to the treatment of patients with idiopathic scoliosis.

Improvements of existing treatment options such as scoliosis-specific exercises, braces, and spinal fusion, as well as the introduction of innovative methods such as vertebral body tethering have resulted in an increased complexity of available options and a more individualized treatment strategy.

It is a pleasure to serve as guest editor for this special issue and I invite you to submit your research (studies, reviews) with a focus on Current concepts and innovative methods to this issue.

Dr. Per Trobisch

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPUS / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
