Message from the Guest Editors

Dear Colleagues,

Spine-related disorders often impair quality of life and activities of daily living, and are problems in rapidly aging societies. Notably, motor deficit, body imbalance, and neuropathic pain have been recognized as the main causes of frailty in the elderly population. Spine surgeons and neurosurgeons should make appropriate diagnoses, to interpret detailed pathologies, and plan optimized solutions in treating such patients.

For this Special Issue titled “Current Advances in Spinal Diseases of Elderly patients”, we would like to invite authors to submit their original articles or review papers on recent surgical innovations, new diagnostic developments, and the long-term perspective of the clinical treatment of spinal disorders. Notably, we would like to focus on strategies for metastasis, degenerative deformity, and inflammatory diseases in the spine.

Message from the Editorial Board

Journal of Clinical Medicine (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
