Message from the Guest Editors

Dear Colleagues,

Pulmonary hypertension is a major global health issue estimated to affect 1% of the global population and is thought to be associated with multiple cardiovascular and respiratory diseases. Irrespective of the underlying condition, PH is associated with worsening symptoms and increased mortality. However, in the last decade, substantial progress has been made in the diagnosis and management of pulmonary hypertension.

This Special Issue (SI) of the *Journal of Clinical Medicine*, entitled “*JCM—Pulmonary Hypertension: Updates in Diagnosis and Management*”, aims to publish review articles and original research related to recent advances in surgical as well as pharmacological therapy for pulmonary hypertension. We will include ground-breaking research articles of significant clinical and scientific value, including observational studies, review articles and clinical trials.

Prof. Dr. Anjali Vaidya

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (General Medicine)
