Deadline for manuscript  
submissions:

**closed (15 October 2022)**

### Message from the Guest Editor

I have the honour of being the Guest Editor of a new Special Issue for the *Journal of Clinical Medicine*, titled “Clinical Research on Type 2 Diabetes and Its Complications”.

This Special Issue will bring together exciting papers focused on clinically relevant research on type 2 diabetes and its complications, ideally offering a sound overview of the most interesting topics in the field. The Issue should be an attractive condensed reading for physicians interested in a general view of diabetes, including primary care, internal medicine, and geriatric medicine.

Manuscripts describing clinical research on type 2 diabetes, including original research, reviews, or mini-reviews, will be welcome. Research and data from a global and multiethnic source will be appreciated. The roles of new technologies in the detection, management, and prediction of diabetic complications are also of interest. We aim to present an updated view on the current incidence, prevalence, and disease burden caused by diabetes complications.

Many thanks in advance.

## Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
