Message from the Collection Editor

Dear Colleagues,

Breast cancer is a highly heterogeneous disease and represents the leading tumor diagnosed and the most frequent cause of cancer death in women worldwide. Breast cancer develops following complex interplays between genetic and non-genetic factors, interacting with the hormones that regulate mammary development. Hereditary and familial cancers account for up to 20–30% of all breast cancers. Considering age, about 25–30% of women are ≥ 70 years old, and around 6–7% are young (< 40 years old). Breast cancer rarely occurs in males and represents less than 1% of all diagnoses.

.....

This Special Issue will highlight the current state of the art on recent advances in breast cancer, both in the early and the advanced disease, in genetic counseling and fertility preservation, management of long-term toxicities, survivorship issues, and supportive and palliative care.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
