Message from the Guest Editor

Dear Colleagues,

In the current situation of obesity as a worldwide pandemic, there is currently no doubt that bariatric surgery is the most effective treatment for severe obesity. In this respect, thousands of bariatric procedures are currently being performed around the world with an exponentially increasing trend. During the past several years an intense scientific activity in this field has been realized, allowing us to obtain a deeper knowledge of the effect of bariatric procedures on obesity comorbidities, a more complete view on perioperative complications, medium-term effectiveness, and new bariatric surgery techniques, among others. The scope of this Special Issue is to provide an overview of recent advances in the field of bariatric surgery. Therefore, researchers in the field of bariatric surgery are encouraged to submit an original article (no animal research) or review to this Special Issue (case reports and short reviews are not accepted).

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPUS / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
