Message from the Guest Editor

Dear Colleagues,

Endovascular aortic repair, being less invasive than traditional open repair and after significant progress in the used stent-grafts and endovascular techniques in the last two decades, has evolved to become the therapy of first choice for most patients. Aneurysm patients are mostly elderly with significant comorbidities, and thus, open aortic repair is now offered as a first-line therapy only in younger patients, in patients with connective tissue disease or in cases of mycotic aneurysms or stent-graft infections. With the use of modern technology with branched and fenestrated stent-grafts, endovascular aortic repair is now offered for aortic pathologies from the ascending aorta to the aortic bifurcation. This Special Issue of the Journal of Clinical Medicine will cover modern endovascular techniques in the therapy of aortic pathologies.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
