

Special Issue

Recent Advances in Head and Neck Surgery

Message from the Guest Editors

Head and neck surgery remains one of the most challenging fields for both oncologic and reconstructive surgeons. Therapeutic and reconstructive approaches are continuously evolving, and advancements in open, endoscopic, microscopic, robotic, and computer-assisted techniques have enabled unprecedented progress. This Special Issue aims to highlight the latest advancements in head and neck surgery, encompassing a broad spectrum of topics that reflect the ongoing evolution of both oncologic and reconstructive surgery. It will explore new insights, cutting-edge techniques, technological integration, and strategies to optimize surgical approaches, improve post-surgical recovery, reduce complications, and enhance long-term patient care. We invite researchers and clinicians to contribute original research articles and state-of-the-art reviews, systematic reviews, and meta-analyses that investigate novel techniques, technological innovations, and emerging trends in head and neck surgery. We look forward to your valuable contributions.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
