

## Special Issue

# New Clinical Treatment for Ocular Vascular Disease and Fundus Disease: Second Edition

### Message from the Guest Editors

We are thrilled to announce the release of the second volume of our Special Issue, entitled "New Clinical Treatment for Ocular Vascular Disease and Fundus Disease: Second Edition". This Special Issue focuses on the latest advancements and clinical treatments for ocular vascular diseases and fundus disorders. Ocular vascular diseases, such as diabetic retinopathy, retinal vein occlusion, and age-related macular degeneration, are leading causes of vision loss and require effective therapeutic interventions. Similarly, fundus disorders, including retinal detachment, macular holes, and vitreomacular traction, pose significant challenges to ophthalmologists worldwide. The articles included in this Special Issue cover a wide range of topics, including novel pharmacological interventions, surgical techniques, imaging modalities, and regenerative therapies. By providing a comprehensive overview of the latest clinical advancements,

- ocular vascular diseases
- fundus disorders
- diabetic retinopathy
- retinal vein occlusion

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
