

Special Issue

Ulcers After Bariatric Surgery

Message from the Guest Editors

The aim of this Special Issue is to report the rate of MU after new bariatric procedures such as one anastomosis gastric bypass, single anastomosis sleeve-ileal bypass, or single anastomosis duodeno-ileal bypass and to further investigate the relationship between known risk factors and marginal ulcer (MU) formation, especially after revisional procedures.

- marginal ulcer
- sleeve gastrectomy
- Roux-en-Y gastric bypass
- one anastomosis gastric bypass
- single anastomosis sleeve-ileal bypass
- single anastomosis duodeno-ileal bypass

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
