

## Special Issue

# Lung Injury and the Intensive Care Unit: Pathophysiology, Clinical Practice and Treatment for Better Outcomes

### Message from the Guest Editors

Mortality in patients with respiratory failure in the presence of lung injury is still unacceptably high. The pathophysiology of lung injury is complex, and over recent decades great efforts have been undertaken to better understand the mechanisms behind the disease by using advanced lung monitoring and lung imaging diagnostic techniques. These include:

- The analysis of the regional distribution of ventilation and of the lung resting volume;
- Esophageal pressure monitoring to assess the partitioned respiratory mechanics;
- Diagnostic tools to capture patient drive and effort during assisted mechanical ventilation and non-invasive respiratory support.

This technology aims at supporting clinical practice—which is the everyday system of patient care—to achieve better treatments and consequently better outcomes. In this Special Issue, we welcome scientific contributions regarding respiratory failure in critically ill patients.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
