

Special Issue

State of the Art in Musculoskeletal Imaging and Interventional Ultrasound

Message from the Guest Editors

Nowadays, ultrasound has become a first-level diagnostic and therapeutic tool in many musculoskeletal pathologies. This Special Issue investigates all aspects of musculoskeletal ultrasound both in diagnostic and therapeutic terms. Musculoskeletal ultrasound is increasingly becoming a first-level exam in the study of the main tendon, muscle and osteo-articular pathologies. The advantages of ultrasound are that it is a simple, inexpensive, non-invasive method. In particular, infiltrative therapy under ultrasound guidance appears to be safe and reliable in the treatment of many musculoskeletal pathologies. Articles with relevance to musculoskeletal ultrasound and ultrasound-guided interventional procedures will be examined. Therefore, researchers in the field of musculoskeletal ultrasound are encouraged to submit their findings as original articles or reviews to this Special Issue.

Guest Editors

Dr. Stefano Galletti

Musculoskeletal Ultrasound School, Italian Society for Ultrasound in Medicine and Biology, Bologna, Italy

Dr. Danilo Donati

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
