Aortic Valve Disease: Current Evolution and Future Opportunities

Message from the Guest Editor

We invite you to participate in this Special Issue of JCM, titled “Aortic Valve Disease: Current Evolution and Future Opportunities”. This Special Issue will focus on the latest research, treatment strategies, and clinical insights related to aortic valve disorders, an area in which you have made significant contributions.

Given your expertise in cardiology and your extensive work on valvular heart diseases, we believe your perspective would greatly enhance the quality and depth of this Special Issue. We are seeking articles on a range of topics, including, but not limited to, the following: Congenital aortic valve diseases (e.g., bicuspid aortic valve and unicuspid valve); Early diagnosis and imaging techniques; Surgical and interventional approaches (e.g., balloon valvuloplasty and valve repair/replacement); Emerging research and novel therapies for pediatric aortic valve conditions. We look forward to receiving your submissions to this Special Issue.
