

Special Issue

(Targeted) Diagnosis of Arrhythmias and Sudden Cardiac Death

Message from the Guest Editor

This Special Issue of the *Journal of Clinical Medicine* focuses on the targeted diagnosis of arrhythmias and sudden cardiac death, highlighting recent advances in the field. It covers a wide range of topics, including novel imaging techniques, non-invasive electrophysiology testing, and advanced genetic analysis. These cutting-edge approaches provide new insights into the pathophysiology of arrhythmias, facilitating personalized diagnosis and treatment. The use of artificial intelligence and machine learning in arrhythmia diagnosis and risk stratification, improving accuracy and efficiency, will also be discussed. This Special Issue will be an invaluable resource for cardiologists, electrophysiologists, and researchers involved in the diagnosis and management of arrhythmias and sudden cardiac death, providing a comprehensive overview of the latest developments and trends in arrhythmia diagnosis, as well as practical guidance for clinicians.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
