

## Special Issue

# Management of Coronary Syndrome for Better Outcome

### Message from the Guest Editors

Coronary syndromes, both acute and chronic, remain a major cause of morbidity and mortality worldwide despite remarkable advances in prevention, diagnosis, and treatment. The management of patients with coronary artery disease has become increasingly complex, requiring timely diagnosis, tailored therapeutic strategies, and the integration of innovative pharmacological, interventional, and technological approaches. Improving patient outcomes demands not only the optimization of clinical decision-making but also the translation of novel research findings into daily practice. This Special Issue aims to gather cutting-edge contributions on the management of coronary syndromes to promote a deeper understanding of risk stratification, diagnostic innovations, therapeutic strategies, and long-term follow-up care. In line with the journal's scope, it will provide a multidisciplinary platform for cardiologists, interventionalists, surgeons, imaging specialists, and researchers to share original data and critical insights. In this Special Issue, original research articles and reviews are welcome.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
