

## Special Issue

# Takotsubo Syndrome: Insights into Pathophysiology, Diagnosis, and Management

### Message from the Guest Editors

Takotsubo syndrome (TTS) is an acute, reversible cardiomyopathy characterized by transient left ventricular dysfunction in the absence of obstructive coronary artery disease. It often presents with chest pain and ECG changes mimicking acute coronary syndrome and is frequently precipitated by physical or emotional stress. Although the exact pathophysiology remains unclear, proposed mechanisms include catecholamine-mediated myocardial stunning, microvascular dysfunction, and autonomic dysregulation. Despite its transient nature, TTS is associated with significant complications including acute heart failure, arrhythmias, thromboembolic events, and recurrence. Advances in imaging modalities, biomarker discovery, and risk stratification are refining diagnostic accuracy and prognostic assessment. However, optimal management strategies remain debated, particularly regarding outcomes and prevention. This Special Issue aims to explore recent advances in the clinical pathophysiology, diagnosis, and clinical management of TTS. We welcome research that contributes to a deeper understanding of disease mechanisms, risk factors, novel diagnostic tools, and emerging therapeutic strategies.

### Guest Editors

Dr. Andreas Mitsis

General Hospital of Nicosia, 2029 Nicosia, Cyprus

Dr. Nikolaos Kadoglou

Medical School, University of Cyprus, Nicosia 2029, Cyprus

### Deadline for manuscript submissions

31 October 2025

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
