Mental Health during the COVID-19 Pandemic: Clinical Research Advances

Message from the Guest Editors

The outbreak of the pandemic of COVID-19 determined unprecedented disruptions in people's daily lives as well as a pervasive state of concern and fear. Previous studies highlighted a worldwide dramatic increase of psychopathological symptoms following the outburst of COVID-19. Less is known about the effects of pandemic on the mental health of frailty individuals (i.e., elderly individuals, people with disabilities, etc.) and about long COVID syndrome. The goal of this Research Topic is to outline a multifaceted perspective of the mental health consequences of the COVID-19 pandemic, from the beginning of the outbreak onwards. In particular, updated epidemiological data, transcultural comparisons, and etiopathogenic studies are of the utmost clinical interest. The outcomes from these studies should help with the diagnosis, prevention, and overall therapeutic aims of neuropsychiatric conditions due to the pandemic. We welcome original research articles, reviews, meta-analyses and position papers addressing the above aims.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi
