

Special Issue

Recent Clinical Advances in Cardiac Rehabilitation

Message from the Guest Editor

Comprehensive cardiac rehabilitation was first defined by the WHO in 1963; despite the passage of six decades since then, it still does not require redefinition. Despite obtaining class I recommendations in the management of patients after acute coronary syndrome or after hospitalization due to heart failure, we still see insufficient use of this method of culminating in-hospital treatment. In this Special Issue, we want to present the latest achievements in cardiac rehabilitation and create a platform for exchanging experiences between centers conducting this form of treatment. We invite cardiologists, internists, physiotherapists, psychologists, and all specialists involved in the rehabilitation process after the treatment of heart and vascular diseases to send their works, among which original works and review articles are welcome. Keywords:

- cardiac rehabilitation
- kinesiotherapy
- psychological support
- lifestyle modifications
- myocardial infarction
- heart failure

Welcome to **scan** the QR code on the **left** for more information. Welcome to submit manuscripts.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief
