Enteric Nervous System: Neuropathic Gastrointestinal Motility—2nd Edition

Message from the Guest Editors

We are thrilled to announce the release of the second volume of our Special Issue, entitled "Enteric Nervous System: Neuropathic Gastrointestinal Motility—2nd Edition". Patients with both digestive and extra-digestive diseases, including inflammatory bowel diseases (IBDs), irritable bowel syndrome (IBS), intestinal infections, metabolic syndromes, and neurological disorders, are often characterized by severe gastrointestinal (GI) dysfunctions, such as dysphagia, infrequent bowel movements, and constipation. In this context, several pieces of evidence suggest that gut dysbiosis, impairments of enteric epithelial barrier, and intestinal immune/inflammatory responses promote neuroplastic changes in the enteric nervous system, which could contribute to bowel motor dysfunctions. The purpose of this Special Issue is to characterize the involvement of the enteric bacteria–neuro–immune system in the pathophysiology of GI dysmotility associated with digestive and extra-digestive diseases.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
