

Special Issue

Innovations, Biomarkers, and Challenges in Cancer Immunotherapy

Message from the Guest Editors

Cancer immunotherapy has transformed the treatment landscape for many malignancies, offering unprecedented clinical benefits; however, despite these advances, challenges such as limited response rates, immune evasion, therapy-related toxicity, and lack of predictive biomarkers remain significant obstacles. This Special Issue, “Innovations, Biomarkers, and Challenges in Cancer Immunotherapy”, aims to provide a platform for reporting and discussing cutting-edge research that addresses these challenges and accelerates the translation of novel immunotherapies into clinical practice. We welcome submissions on next-generation cellular therapies, combination strategies (e.g., CAR-NK or CAR-T cells with checkpoint inhibitors, T-cell engagers with chemotherapy, or exosomes with immune stimulators), exosome-based interventions, biomarkers for predicting or monitoring therapy response, and studies exploring the tumor microenvironment or mechanisms of immune resistance. We invite authors worldwide to contribute high-quality manuscripts that highlight innovations, tackle core clinical problems, and help shape the future of cancer immunotherapy.

Guest Editors

Dr. Mohammad Mousaei Ghasroldasht

Department of Surgery, Section of Urology, University of Chicago, Chicago, IL, USA

Dr. Mahzad Akbarpour

Department of Internal Medicine, Division of Hematology, Oncology and Cell Therapy, Rush University Medical Center, Chicago, IL, USA

Deadline for manuscript submissions

20 January 2027

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPLus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
