

## Special Issue

# Lumbar Spine Surgery: Causes, Complications, and Management 2nd Edition

### Message from the Guest Editors

The lumbar spine plays a very important role for humans, who walk on two legs, such as acquiring spinal support, protecting cauda equina nerves, and maintaining mobility. Lumbar spinal diseases are common and lead to substantial morbidity as well as a loss of productivity in society. Despite progress in the investigation of the causes of lumbar spinal disease, it is still unclear. We feel the need to go one step further from past research. Further research would be desirable to establish breakthrough discoveries and treatments for lumbar spinal disorders. Firstly, we would like to expect many reports from various fields, such as image analysis research using AI (artificial intelligence), tractography, CT/MRI fusion imaging, and whole-body bone X-rays. Next, we are looking forward to submissions on surgeries using new techniques, minimally invasive surgery, robotic surgeries, and treatment methods for rare lumbar spinal diseases, which have been developed in recent years. Studies to prevent postoperative complications in the lumbar spine are also recommended.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2024).
