Clinical Updates on Metabolic and Bariatric Surgery

Message from the Guest Editor

Obesity has emerged as one of the most critical global health challenges, significantly contributing to the rise in metabolic disorders and comorbid conditions such as type 2 diabetes and cardiovascular diseases. Bariatric and metabolic surgery has become a crucial intervention for effectively treating obesity and its related comorbidities, offering significant improvements in long-term health outcomes and quality of life. Additionally, new pharmacological treatments for obesity and technological advancements in the surgical field have recently emerged. This Special Issue aims to publish reviews and original research articles on the latest clinical advances in metabolic and bariatric surgery, focusing on how recent innovations in this field can optimize patient selection, safety, and outcomes. We look forward to receiving your contributions.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
