Advancing Psycho-Oncology: Multidimensional Approaches and Challenges to Cancer Care

Message from the Guest Editors

Research on the experience of oncological diagnoses and treatments has consistently demonstrated a significant impact on psychological, social, behavioral, and emotional domains. Psycho-oncology plays a crucial role in addressing the burden faced by patients, families, and caregivers throughout the cancer journey, influencing health outcomes as well. From this perspective, emerging evidence shows that psychological distress not only affects mental health but also directly impacts treatment outcomes. The primary focus should be on developing a unified and synergistic healthcare response that respects the complexity of the cancer experience, adapting efficient interventions to recover the life dimensions damaged by the illness, as well as facing the palliative stage and end of life. We particularly encourage submissions that address disparities in access to psycho-oncological services, innovative research methodologies, and interdisciplinary collaborations.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPLus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
