

## Special Issue

# Clinical Advances in the Surgical Treatment of Spinal Tumors

### Message from the Guest Editors

The treatment of spinal tumors (metastatic disease and primary tumors) is challenging for two reasons: the complex spinal anatomy with topographic vicinity of the essential neurovascular, visceral, and pulmonary structures and the obligatory interdisciplinary management that guide patients from their initial diagnosis through the course of the diseases.

This Special Issue of the Journal of Clinical Medicine focuses on latest technical advances in surgical methods and resections for primary and secondary spinal tumors and summarizes the treatment-specific risk and complication profiles, as well as individual outcomes.

- spinal tumors
- spinal sarcoma
- spinal metastasis
- 3D imaging and navigation
- en bloc spondylectomy

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
