Current Challenges and Innovations in the Treatment of Pancreatitis

Message from the Guest Editors

Pancreatitis remains a complex clinical condition with significant morbidity, ranging from acute inflammatory episodes to chronic progressive disease, and persistent gaps in early diagnosis and individualized treatment. This Special Issue aims to highlight current challenges while showcasing emerging innovations that can advance diagnostic accuracy, therapeutic approaches, and overall patient outcomes. Cutting-edge developments—including novel biomarkers, AI-based predictive tools, minimally invasive endoscopic and radiologic therapies, and new insights into inflammation, fibrosis, and genetic susceptibility—are reshaping the field. We welcome original research, reviews, clinical studies, innovative techniques, and translational investigations that address unmet needs or outline future directions in pancreatitis care.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
