Current Measures for Diagnosis, Monitoring, and Outcome Assessment in Orthopedics, Traumatology, and Hand Surgery

Message from the Guest Editors

We are pleased to announce the call for papers for a Special Issue entitled “Current Measures for Diagnosis, Monitoring, and Outcome Assessment in Orthopedics, Traumatology, and Hand Surgery” to be published in the *Journal of Clinical Medicine*. The field of orthopaedics, traumatology, and hand surgery continually evolves with advancements in diagnostic tools, monitoring techniques, and outcome assessment measures. This Special Issue aims to bring together cutting-edge research and innovations in orthopedics, traumatology, and hand surgery, specifically focusing on developing and applying advanced diagnostic, monitoring, and outcome assessment measures. We look forward to receiving your valuable contributions and believe that this Special Issue will significantly contribute to advancing knowledge in orthopedics, traumatology, and hand surgery.

Guest Editors

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief
