

Special Issue

Musculoskeletal Imaging and Intervention

Message from the Guest Editors

This Special Issue will cover a wide range of topics, such as new imaging modalities, minimally invasive surgical procedures, invasive physiotherapy, and the integration of artificial intelligence into diagnostic and therapeutic processes. By presenting a comprehensive overview of the latest advances, this Special Issue aims to highlight both the potential and limitations of these techniques.

Key issues to be addressed include improving accuracy, ameliorating patient outcomes, and reducing procedural risks. The scope of this Special Issue encompasses studies ranging from basic research to clinical applications, with an emphasis on translational aspects that bridge the gap between laboratory findings and real-world practice. Through this mobilization of knowledge, this Special Issue aims to inspire future research and innovation, ultimately contributing to the advancement of medical and physiotherapeutic practices. Keywords:

- ultrasound
- invasive physiotherapy
- minimally invasive surgical procedures
- magnetic resonance
- image analysis

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
