

## Special Issue

# Recent Advances in Adverse Pregnancy and Neonatal Outcomes

### Message from the Guest Editor

Adverse pregnancy and neonatal outcomes remain significant challenges in obstetric and neonatal care. Cesarean sections (CS), while life-saving, are associated with increased risks of uterine rupture, abnormal placentation, and neonatal complications like asthma and altered gut microbiome diversity. Multiple CS procedures further elevate risks of uterine dehiscence and surgical complications.

Innovations in fetal medicine, such as intrauterine surgeries for congenital conditions like spina bifida, have improved neonatal survival rates. Robotic-assisted surgeries and AI-based diagnostics are enhancing precision and early detection of complications like gestational diabetes. Despite these advancements, challenges persist in low-resource settings where maternal mortality from obstructed labor and hemorrhage remains high.

Efforts to optimize CS use and strengthen antenatal care are crucial for mitigating adverse outcomes. The integration of advanced technologies into maternal-fetal medicine offers promising pathways to improve health outcomes for mothers and newborns globally.

### Guest Editor

Dr. Sae-kyung Choi

Department of Obstetrics and Gynecology, Incheon St. Mary's Hospital, College of Medicine, The Catholic University of Korea, Seoul 21431, Republic of Korea

### Deadline for manuscript submissions

25 November 2025

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

---

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
