

Special Issue

Updates on Cardiac Pacing and Electrophysiology

Message from the Guest Editor

In recent years, substantial progress has been made in cardiac pacing and clinical electrophysiology. New technologies and innovative approaches have emerged and entered the clinical arena. Some have already become established treatment options, while others are still under development, and more evidence from clinical studies is warranted. This Special Issue will provide the latest novel results of pacemaker and implantable cardioverter–defibrillator therapy, including conduction system pacing, leadless pacemakers, extracardiac ICD and lead extraction. Moreover, we will provide a comprehensive state of the art of the invasive treatment of supraventricular and ventricular tachycardia, including new diagnostic tools and treatment modalities, as well as clinical results. This will also include cardio-neuro ablation for the treatment of non-cardiac syncope. Researchers in the field of cardiac pacing and clinical electrophysiology are encouraged to submit review articles giving a critical appraisal of the current status of new, innovative approaches and novel technologies, as well as original articles presenting clinical outcome studies within the field.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
