

## Special Issue

# Frailty in the Elderly: Risk Factors, Prevention and Clinical Management

### Message from the Guest Editor

Rapidly progressing medicine prioritizes the realm of precision medicine for better targeting the individual nature of a disease: deranged proteins, specific mutations, intra-cellular targets, etc. Nevertheless, despite being important, these represent precision rather than personalized medicine. The true personalization of diagnostics and therapeutics will never be attained by concentrating on molecules and organelles. Frailty, the phenotypic translation of sarcopenia, represent a summation of morbidities mainly, but not exclusively, in the elderly. Acknowledging, defining, diagnosing, and addressing sarcopenia and frailty should stand at the epicentre of personalized medicine in multiple disciplines, not only geriatrics. The diagnosis and treatment of both community-acquired pneumonia and advanced cancer share the need for personalization, and the assessment of sarcopenia and frailty is essential for both. In the coming edition, we hope to enrich the clinical insights of clinicians worldwide regarding these critical realms.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPLus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
