

Special Issue

Metabolic Dysregulation Across the Spectrum from Anorexia Nervosa to Obesity

Message from the Guest Editor

This Special Issue will explore the comprehensive spectrum of research on eating and metabolic disorders, ranging from anorexia nervosa to obesity. Despite appearing to be at opposite ends of the body weight spectrum, these eating and metabolic disorders share common metabolic and physiological conditions. This Special Issue will highlight shared and unique metabolic pathways, fostering a comprehensive understanding of metabolic regulation in varying states of body composition and health. For this Special Issue, we invite contributions that include, but are not limited to, the following topics:

- Epidemiological and observational studies on the prevalence of the above disorders and their correlations with anthropometric and psychometric indices, inflammation, oxidative stress, and metabolic parameters;
- Human studies into bioavailability and postprandial and dietary interventions in the management of eating and metabolic disorders.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
