Perspectives in Atrial Fibrillation: Managing Comorbidities, Recurrence, and Therapies

Message from the Guest Editor

Atrial fibrillation (AF) is a prevalent cardiac arrhythmia that poses significant challenges due to its association with various comorbidities, high recurrence rates, and the complexities of its management. This Special Issue will explore the multifaceted nature of AF, delving into the intricacies of managing associated comorbidities such as hypertension, coronary artery disease, diabetes, heart failure, and cancer. Additionally, it will address strategies to prevent recurrence, including lifestyle modifications, pharmacological interventions, and procedural approaches like catheter ablation. This Special Issue will also highlight advancements in therapeutic options, examining the efficacy and safety of novel anticoagulants, antiarrhythmic drugs, and emerging technologies. By compiling cutting-edge research and expert opinions, this Special Issue seeks to enhance our understanding of AF and improve patient outcomes through more effective management strategies. Dr. Zsofia Dora Drobni

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
