Aortic Aneurysm: Latest Insights into Therapeutic Approaches

Message from the Guest Editors

Aortic aneurysmal disease is a potentially life-threatening condition, and its prevalence is expected to grow with the increase in the elderly population due to prolonged life expectancy. Thus, the demand for vascular procedures will inevitably rise worldwide. Over the last two decades, endovascular treatment has evolved to become the treatment of choice due to its associated low morbidity and mortality, while the procedure has been subjected to various refinements with new devices and techniques. Additionally, pre-, peri- and post-operative technological advancements have also improved and new insights have appeared in various fields (imaging, software process, diagnostic tools, perioperative protective measures, and follow-up procedures). This Special Issue aims to provide an update of new insights into diagnostic and therapeutic approaches, focusing on the whole area of aortic aneurysm management, including perceptions of new technologies and novel devices. Accordingly, this Special Issue will provide a forum for high-quality original research and review articles with up-to-date evidence and knowledge.

About the Journal

Message from the Editorial Board

Journal of Clinical Medicine (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
