

Special Issue

Cardiac MRI: Current Techniques and Future Directions

Message from the Guest Editor

The field of cardiac imaging has seen remarkable advancements, drastically transforming the landscape of both the diagnosis and management of cardiovascular conditions. Contemporary imaging modalities, including cardiac magnetic resonance, computed tomography, and nuclear imaging, have revolutionized our approach to cardiac care. This Special Issue, entitled “Cardiac MRI: Current Techniques and Future Directions”, will collect developments in cardiac MRI and provide novel insights into their clinical applications. This Special Issue will overview new relevant applications of this technology, new useful cardiac MRI sequences, the latest evidence, and unresolved issues in cardiology practice. Therefore, I welcome the submission of innovative original research papers and some in-depth review articles dealing with cardiac MRI use in acute and/or chronic cardiac situations.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
