

Special Issue

Clinical Application of Cardiac Imaging

Message from the Guest Editors

Cardiac imaging is a pivotal tool in the diagnosis, management, and treatment of cardiovascular diseases. Its non-invasive or minimally invasive nature makes it a safe and effective option for patients, possessing considerable accuracy compared to invasive techniques. The Special Issue, entitled "Clinical Application of Cardiac Imaging", explores various imaging techniques and their application in the diagnostic and prognostic assessment of cardiovascular diseases. It further discusses the role of multimodality imaging in guiding therapeutic management and interventions, such as cardiac catheterization, electrophysiology studies, and heart surgery, addressing topics such as echocardiography, cardiac magnetic resonance imaging, and computed tomography. Overall, this Special Issue aims to provide a platform for researchers to share their latest findings related to the current state of cardiac imaging and its clinical applications. It will demonstrate the significance of various imaging modalities in the diagnosis and management of cardiac disease, discuss the recent advances in scientific knowledge and highlight the need for continued research and innovation.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
