

Special Issue

Recent Advances in Pancreatic Neoplasms: Part II

Message from the Guest Editors

It is our pleasure to invite you and members of your research group to submit an article for a Special Issue titled "Recent Advances in Pancreatic Neoplasms: Part II". This volume follows on from the previous one, in which 14 papers were published.

Pancreatic cancer is the fourth leading cause of cancer death in Western countries, and will soon become the second leading cause of gastrointestinal cancer death. Surgery and adjuvant therapy remains the standard treatment, but the recurrence rate remains high. Multimodality treatment, that is, neoadjuvant therapy and a combination of chemotherapy, radiotherapy, immunotherapy, and surgery, appears to be essential to obtain better results, but definitive conclusions on its effectiveness are lacking. This Special Issue is focused on the latest developments and challenges in multimodality therapy for resectable and locally advanced pancreatic tumors, the search for prognostic factors for early and late outcomes after therapy, and the evaluation of novel strategies for individualized treatment. We invite relevant original research, systematic reviews, meta-analyses, and short communications covering the above-mentioned topics.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
