

Special Issue

Autoimmune-Induced Alopecia and Emerging Therapies in Hair Loss

Message from the Guest Editor

The aim of this Special Issue is to review the pathophysiological mechanisms behind hair loss and to evaluate the efficacy and safety of emerging therapies in the management of this condition. It seeks to provide a comprehensive scope that includes patient management strategies and future directions in research and therapy. This Special Issue spotlights novel insights into immunological underpinnings and genetic predispositions of autoimmune-induced alopecia. It also explores emerging therapies in hair loss, including new pharmacological interventions, gene therapy techniques and biotechnological advances, aiming to revolutionize treatment paradigms and patient outcomes in hair loss management. We encourage the submission of papers focused on autoimmune-induced alopecia and new therapeutic options for any type of hair loss, including medical therapies and surgical approaches.

Guest Editor

Dr. David Saceda-Corralo

Department of Dermatology, Universidad de Alcalá, Madrid, Spain

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
