

## Special Issue

# Current Advances and Future Perspectives of Laparoscopic Surgery

### Message from the Guest Editors

Since its introduction, laparoscopic surgery has represented a real “revolution” in clinical practice. In recent decades, technological advances like high-definition (HD) cameras, dedicated instruments, and articulating staplers have improved the safety and feasibility of laparoscopic procedures. We saw a large spread of laparoscopic surgery, also in the developing countries, with more difficult and complex operations. Nevertheless, laparoscopic surgery is more difficult to learn and requires different psychomotor skills than open surgery, and this limitation can be challenging, especially with regard to maneuvers requiring precision and dexterity. For this reason, the role of laparoscopic surgeon training is particularly important today. In this Special Issue, we welcome authors to submit papers on the current advances and future perspectives of laparoscopic surgery about the different fields of general, emergency, oncological, and bariatric surgery.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

---

### Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
