

Special Issue

Sepsis: Clinical Advances and Practical Updates

Message from the Guest Editor

Sepsis remains a critical challenge in healthcare, with high rates of morbidity and mortality despite advances in medical care. This Special Issue will bring together a broad range of original studies and reviews that address key developments in the pathophysiology, diagnosis, and management of sepsis. Topics of interest include early detection strategies and novel biomarkers, innovative therapeutic approaches such as immunomodulation and precision medicine, and updates to evidence-based clinical guidelines. Additionally, we encourage submissions focusing on practical aspects of sepsis care, including antimicrobial stewardship, hemodynamic monitoring, organ support techniques, and quality improvement initiatives across various healthcare settings, from emergency departments to intensive care units (ICUs). We welcome contributions from multidisciplinary teams including clinicians, researchers, and healthcare professionals dedicated to improving patient outcomes through enhancing our knowledge and treatment of sepsis. This Special Issue will provide an important platform to share cutting-edge research, best practices, and future perspectives in the dynamic field of sepsis care.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
