

## Special Issue

# Advances in Plastic and Reconstructive and Aesthetic Surgery of Face, Breast and Body

### Message from the Guest Editor

As the guest editor for this Special Issue of our esteemed journal, we invite contributions that explore the multifaceted landscape of plastic and reconstructive surgery. This issue aims to highlight advancements in reconstructive techniques, with a particular focus on reconstructive and breast surgery, which remain a pivotal area of innovation and clinical practice. We encourage submissions that present novel academic research, including clinical trials, systematic reviews, and meta-analyses that contribute to the evidence base in plastic surgery. Additionally, we seek to examine the intersection of social media and plastic surgery, an increasingly relevant topic in contemporary practice. Articles that investigate the impact of social media on patient perceptions, decision-making, and the dissemination of information within the field are particularly welcome. We believe that this Special Issue will not only showcase cutting-edge research and innovations but also foster a dialogue on the evolving role of digital platforms in shaping the future of plastic and reconstructive surgery. We look forward to your valuable contributions that will enrich this important discourse.

### Guest Editor

Dr. Valentin Haug

Department of Plastic Surgery, Vivantes Hospital Friedrichshain, 10249 Berlin, Germany

### Deadline for manuscript submissions

24 February 2026

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
