## Ethnic Differences in Dermatitis and Atopic Eczema and Its Management

### Message from the Guest Editors

Atopic eczema and dermatitis affect diverse ethnic groups with substantial ethnic disparities in the prevalence, treatment, progression and outcomes of AD conditions. Elucidating the mechanisms underlying these group differences is of crucial importance in reducing and eliminating disparities in treatment of atopic eczema. In recent years accumulating evidence has identified a variety of immune factors and genetic polymorphism that influence the susceptibility to AD and response to treatment. We now understand that in Black and Asian individuals AD is more frequent and could be more severe. Few studies have been conducted in Hispanic skin. Unfortunately, most of the studies are conducted in individuals of European ancestry. In this special edition we review differences in epidemiology, clinical phenotype and treatment of AD in multiple ethnic groups and races. We highlight the mechanisms behind these differences including cellular, molecular, immunological, physiological therapeutic and sociocultural mechanisms explaining the disparities in AD. We look forward to your submissions!

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
