

## Special Issue

# Personalized Treatments for Glaucoma Patients

### Message from the Guest Editor

Personalized treatments for glaucoma patients involve tailoring interventions to meet the unique needs of each individual. These treatments consider factors such as the type and severity of glaucoma, the patient's age, overall health, and lifestyle. Common approaches include the use of eye drops to lower intraocular pressure (IOP), laser therapy to improve fluid drainage, and surgical options for advanced cases. Regular monitoring and follow-up visits are crucial to assess treatment effectiveness and make necessary adjustments. The goal of personalized treatments is to preserve vision and enhance the quality of life for glaucoma patients.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPLus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
