Sedation: Clinical Challenges and New Insights

Message from the Guest Editor

Surgical procedures are constantly evolving, and many are being replaced with safer non-surgical interventions. Additionally, patients who are not candidates for aggressive surgical procedures benefit from less invasive options. Several such interventions have moved out of operating rooms to, unfortunately, lesser-equipped procedure rooms. Even though the field of gastroenterology leads in this area, other disciplines such as respiratory medicine, cardiology, radiology, and reproductive healthcare are making steady progress too. The drug and device industry has responded to this uniquely dynamic landscape. Newer sedative agents such as remimazolam and opioids such as oliceridine are some of the tools currently available. The device market has evolved to address the oxygenation and ventilation issues faced by anesthesia providers tasked with providing sedation and anesthesia in unfamiliar areas. In this Special Issue, we aim to publish articles that uniquely assist anesthesia providers, provide an overview of challenges, and suggest solutions.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
